Objective

Motivated Computer Science and Engineering student seeking opportunities in software engineering, cloud computing, or AI/ML. Eager to apply full-stack development skills and cloud expertise to contribute to innovative, scalable solutions.

Education

Bachelor of Engineering in Computer Science and Engineering Expected June 2027
JSS Academy of Technical Education, Bangalore, Karnataka
CGPA: 8.6/10 (as of 3rd semester)

Technical Skills

- **Programming Languages**: Python, Java, JavaScript, HTML, CSS

- **Frameworks & Tools**: ReactJS, Django, MySQL, Linux, AWS (EC2, S3), Docker, Kubernetes

- **Concepts**: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Networking, IT Fundamentals

Projects

Personal Portfolio Website August 2025
Full-Stack Developer

- Developed a responsive single-page portfolio using HTML, CSS, JavaScript, and ReactJS for the frontend, with Django for backend email functionality.

- Implemented smooth-scrolling navigation and a mobile-friendly sidebar, enhancing user experience across devices.

- Deployed on AWS EC2, utilizing S3 for static file storage, ensuring scalability and performance.

Cloud-Based Web Application June 2025
AWS Developer

- Built a web application hosted on AWS EC2, leveraging S3 for efficient storage and retrieval of static assets.

- Configured Linux-based server environments for deployment, ensuring secure and reliable access.

- Integrated basic user authentication using Django, showcasing full-stack development capabilities.

Certifications

- AWS Certified Cloud Practitioner (In Progress, Expected October 2025)

- FreeCodeCamp: Responsive Web Design (Completed, July 2025)

- TheLinuxFoundation: Introduction To Linux (In Progress, Expected September 2025)

Achievements

- Participated in the 2024 Impulse Hackathon at BGS College in November, developing a driver drowsiness detector using Python.

- Successfully contributed to Google Summer of Code 2024, delivering impactful code and documentation.

- Developed and deployed three cloud-based projects on AWS, showcasing practical cloud computing skills.

Interests

- Exploring AI/ML frameworks for building intelligent applications.

- Contributing to open-source projects to enhance collaboration and coding skills.
